

Workshop Title	HIV and AIDS in the Workplace
Workshop Description	HIV and AIDS are contemporary issues affecting organisations at every level within all sectors in the private and public sectors. Organisations expect staff to deal with matters relating to this epidemic in a humane and professional manner. Delegates will gain an understanding of STIs and Aids. They will also gain information on their rights with regards to Aids and how to deal with this sensitive issue in the context of the working environment. Practical examples on dealing with the disease will also be explored.
Admission Requirements	<ul style="list-style-type: none"> • Must be at least twenty three years of age. • Must be in possession of a matric certificate or the mature age exemption procedure will apply.
