

Workshop Title	Leadership and People Management
Workshop Description	Leadership within an organisation requires an acute ability to plan, organise, lead and control resources on an ongoing basis. This workshop seeks to introduce concepts in leadership and illustrate a link between leadership and people management. Delegates will learn how to effectively manage others and themselves in terms of organisational change, performance management and integrative management. The workshop also looks at concepts of systems thinking.
Admission Requirements	<ul style="list-style-type: none"> • Must be at least twenty three years of age. • Must be in possession of a matric certificate or the mature age exemption procedure will apply.
