

<b>Workshop Title</b>	<b>Problem-solving and Decision-Making</b>
<b>Workshop Description</b>	One of the most critical task of a manager is to troubleshoot and make decisions in a complex environment. Managers are also required to make decisions in carrying out daily functions and sometimes under pressure. It is therefore imperative that managers have the necessary skills to make efficient decisions and solve problems in the shortest period of time. This work shop will impart these skills and techniques. Delegates will also learn about the steps in the decision making process and how to implement these steps effectively.
