

Workshop Title	Public Finance Management
Workshop Description	It has become more crucial for municipalities and governmental departments and organisations to utilise transparent methods to manage their budgets and finances. The public have become more interested in the bottom line of these divisions and all stakeholders require key information from a financial perspective for planning and performance review. This workshop seeks to empower delegates to improve their efficiency within their department and to improve the overall financial management of funds within their sector. The workshop explains concepts, contexts and public finance terminology. The workshop also covers statutory framework, of PFMA, MFMA, Treasury Regulations and Public Sector Regulations. Budgets are covered in this workshop, on how to develop budgets, develop performance budgets and how to set up budget improvement plans. How to align spending in accordance with statutory performance measures. The work shop also covers the GAAP principles and the impact of globalisation of public sector finance.
